Petcalm Testimonial - Caylyn's Story

My name is Caylyn and I'm a female rescue whippet/greyhound cross. Humans treated me badly and at some stage in my life I was shot in the shoulder and then abandoned. You can imagine that I will be forever grateful to the kind person who found me and brought me to the local animal shelter in Gorey Co. Wexford, Ireland.

There the staff were horrified by my condition but they carefully and lovingly nursed me back to health and then one day ten months ago a wonderful lady called Barbara Thompson adopted me and that turned out to be the best thing that ever happened to me. Barbara, very patient and kind, did her best to make me at ease in her home but I was still very wary of strangers especially men and when someone came to Barbara's house I ran upstairs and hid.

That was until I went to Pet Expo 2009 in the RDS and met Jim Stephens the animal behaviourist. The RDS is a big place and seeing all the people and hearing all the noise had me absolutely terrified and stressed out of my mind. I stood close to Barbara, while she was talking to Jim and I sensed that he was not like other bad people. Then he handed Barbara a little bottle and told her to spray it into my mouth. I was dubious but trusted Barbara and so I opened my mouth and in went the spray.

What Dogs Want

It tasted like liver and bacon ...quite nice!

Then about ten minutes later I had the most amazing sensation, I felt good, the fear and stress seemed to leave me and when Jim gave me a treat, I accepted it.

I even surprised myself because before this I would not even accept a treat from Barbara's friends let alone from a stranger.... Something was happening and it felt good. Barbara could see the change in me too and she entered me for the Best Rescue Pet Competition at Pet Expo 2009 and do you know what..... I won!

Barbara, of course, was thrilled and I was very proud of myself having conquered my fears and overcome terrible hardships. Now I'm famous. My face is the face of www.Molly's.ie, the people, who organized the competition. Whatever is in that spray, I hope, Barbara will give it to me on a regular basis because it makes me feel on top of the world.

Barbara says: "I'm very impressed with the results of Pet Calm and will certainly keep using it especially at times like Halloween, Christmas and New Year's Eve. Thanks to PetCalm, Caylyn's life has improved tremendously. She is a different dog!"

Pet-Calm	
SUPPLEMENT SPRAY	
Manufactured & patented by: Mayor Pharmaceutical Labs., Inc. Phoenix, AZ 85034, U.S.A.	
Imported by: Healthcare International, Bawnmore, Claremorris, Co. Mayo, Ireland
